

Smoke-Free Housing Directory - McLean County

Updated: 05/11/2017

The Smoke-Free Housing Directory was created to highlight multi-unit rental properties in McLean County that offer smoke-free housing options for residents. To be included in the directory, management has self-reported that one or more buildings are 100% free of smoke infiltration. Smoking on these properties may be allowed on patios or other outdoor spaces.

Note: This list does not reflect current vacancies or apartment availability. Please check with property directly regarding available smoke-free units.

Disclaimer: The McLean County Health Department provides these listings as a public service. Please note that the information in the directory is subject to change without notice. Please note that we make no guarantees the units/buildings are smoke-free. We recommend that you carefully inspect properties you may be interested in and look for language in the lease that sets forth both the landlord's responsibilities and the resident's responsibilities to keep the buildings free of smoke.
