

McLean County Health Department

SERVICES

WIC | (309) 888-5457

Helps income-qualified parents feed their children properly during critical periods of growth and development, from pregnancy until a child reaches five years of age.

You can:

- Receive nutrition education and breastfeeding support
- Be provided with nutritious foods and food vouchers accepted by many local vendors

Clinical Health Services | (309) 888-5435

Prevents and controls the spread of disease in our community through the efforts of communicable disease investigators and public health nurses.

You can:

- Access HIV testing and counseling
- Be tested for STIs
- Be tested for tuberculosis (TB)
- Obtain free condoms

Family Case Management | (309) 888-5517

Connects pregnant women and children under the age of one to health and wellness services. This program offers guidance and support to families so that they have healthy babies and lead healthy lives.

You can:

- Be connected to a medical provider for you and your baby
- Get health insurance for your child
- Be assigned a case manager who will design a plan of action based on your needs

Immunizations

Child: (309) 888-5455 Adult: (309) 888-5435

Provides immunizations for all ages and stages of life. You never outgrow the need for immunizations.

You can:

- Make an appointment for a child Monday through Friday
- Make an appointment for an adult Mondays, Wednesdays, and Fridays

HealthWorks | (309) 888-5465

Facilitates access to essential health services for children in the care of the Illinois Department of Children and Family Services.

Dental | (309) 888-5479

Ensures the oral health of financially eligible children and adults. Services provided include cleanings, exams, extractions, and fillings.

You can:

- Make an appointment for a child Monday through Thursday
- Make an appointment for an adult on select Fridays

All Our Kids | (309) 888-5539

Ensures that babies are born healthy, children remain healthy and enter school ready to learn, and families are satisfied with the services that they receive. This is accomplished through a network of community stakeholders.

Behavioral Health | (309) 888-5450

Plays an important part in the McLean County community by working in partnership with other community agencies. This partnership helps address the community's mental health and substance use needs and provide support for individuals with an intellectual and/or developmental disability.

Environmental Health | (309) 888-5482

Protects residents and visitors from disease and illness connected with food, sewage, water, mosquitos, and other pests that carry disease. Sanitarians offer guidance, perform inspections, and conduct surveillance activities.

You can:

- Apply for a food permit
- Get guidance for your food operation, septic system, geothermal well, or water well

Emergency Preparedness | (309) 888-5450

Plans for the response to public health emergencies, including bio-terrorism and pandemic influenza. Recruits and trains community partners regarding their roles to support a public health emergency response.

You can:

- Join the Medical Reserve Corps
- Request presentations on planning for an emergency, reducing vulnerability to extreme weather events, and more

Health Promotion | (309) 888-5446

Focuses on activities aimed at keeping people healthy and reducing their chances of developing chronic diseases.

You can:

- Request presentations or educational materials on healthy eating, active living, tobacco and vaping, hygiene, and other health topics
- Request smoking cessation assistance

Registrar for Vital Records | (309) 888-5481

Maintains birth and death records from January 1999 to the present date.

You can:

- Request a birth certificate copy
- Request a death certificate copy

Other Services

You can:

- Request Mental Health First Aid training for a group | (309) 888-5539
- Be tested for lead poisoning | (309) 888-5457
- Get a pregnancy test | (309) 888-5457
- Donate breast milk to the McLean County Milk Depot | (309) 888-5971
